# Retail Workers at the of our communities

Usdaw is the trade union for retail workers. On 5 July 2025 we are celebrating National Retail Workers' Day! The day is a great opportunity to thank retail workers for the essential role they play in our economy and their vital place on our high streets and communities.

The retail industry directly employs three million people, with a further 2.7 million jobs reliant on the success of the industry. It is clear that retail jobs and retail workers are key to our economy and society.

As the trade union for retail workers, Usdaw represents hundreds of thousands of workers across the UK retail sector. We continue to make a crucial difference for retail workers by delivering better jobs and better terms and conditions within the sector.

## **This includes the following actions:**

- Negotiating higher pay rates and more secure employment contracts.
- Calling for action to help revitalise our high streets.
- Delivering for our members in the workplace, including negotiating supportive policies on the menopause, greater support on mental health issues and caring for children and family.
- Working with employers, Government and the police to tackle abuse, threats and violence towards retail workers and deliver vital new legal protections.
